

The Greatest Words Ever Spoken

by Steven K Scott

There are over 1,900 **things that Jesus said** within Scriptures. This book attempts to categorize them into about 200 categories (some passages are just 1 verse while some are literally dozens of verses). Looking at this LONG list (while typing out the table of contents to the book) it was immediately obvious that Jesus did not have a ONE ISSUE focus (so neither should we!) But he did focus on some things more often, so I boldfaced the 36 topics that came up in things he said at least TWENTY TIMES. I will present these top 36 topics first, followed by the complete list of over 200 topics!

Topics that Jesus spoke about at least 20 times:
